

Technical Inspector / Scrutineer

This is a great way to get to know the rally teams and fill a vital roll in the safety of the event. You will get to know the teams as you process their vehicle through the technical inspection prior to the start of the event making sure each vehicle meets the mechanical and safety requirements of the event.

Vision:

What you deliver: an efficient and rapid paced technical inspection of each competition vehicle.

How you deliver: Use a checklist to inspect each vehicle in during the technical inspection period on Friday and Saturday morning.

Responsibilities:

Friday (4 to 10 PM)

Help setup tech inspection area.

Process competitors through the technical inspection process by inspecting their vehicle and safety equipment using the provided check list.

Assist competitors with any questions they have regarding technical matters.

Saturday (Early morning, 7 AM to 8 AM)

Assist with last minute processing of the above items for any late arrivals.

Time Requirements

This job requires working most of the evening Friday, from about noon if possible, and a few hours early Saturday morning. It allows unlimited time for spectating or working on a competitor's' service crew for the rest of the event.
